Introducing the mitoPodCast

Our guests will walk us through questions based on the themes below. We ask similar questions to our speakers to identify emerging narratives that shed light on developments in mitochondrial medicine, research and patient advocacy communities.

We hope you enjoy and learn with our guests!

LET'S LEARN THE BACKGROUND

We will learn about the background of our guest speakers, what motivates them and what is behind their work!

WHAT HAVE THEY FOUND?

We will learn more about the projects experts in our community are conducting right now! Guests will discuss some of their most interesting and meaningful findings to date and walk us through the innovation in their field.

WHAT ARE THEIR FUTURE STEPS?

We will discover the next steps our guests wish to take going forward and learn how they see their work aiding in the effort to improve treatment of the wide array of diseases related to mitochondrial dysfunction.
Introducing the mitoPodCast

ACCELERATING DRUG DEVELOPMENT?
We will hear the opinions of our experts on how to balance a commitment to patient safety while taking steps to accelerate drug development. Can we achieve this so effective treatments can be delivered to patients?

WHY BRING DIVERSE VOICES TOGETHER?
The Canada Mitochondrial Network is deeply committed to enhancing knowledge exchange and collaboration between those of different fields. Here, learn why mitoPodCast guests believe bringing people from a variety of backgrounds and experiences together will help in finding solutions to the most pressing issues in our field.

FINAL MESSAGE AND HOW TO GET IN TOUCH
We will hear a short-take home message of what our guests believe is essential to ensuring that high-quality care can be delivered to our patient community. Listeners will also learn how to best contact the guests if they have any questions!
